LOOTING IS FEARED IN STRIKE DISTRICT

Strike Movement is Spreading
With Many Thousand Out.

Strike Leaders Take Steps to Pre-
vent Disorder, But Workmen
Are All Orderly Now.

THE CHAIR RECEIVES WORKMEN.

Warsaw, Feb. 4.—Disturbances
continue in the outlying and interior
points of Poland. A report from
Poznan says that the inhabitants
of that city are barricading the win-
dows and doors of their homes, fear-
ing the strikers will resort to loot-
ing. There are now thirty thousand
workmen out at Dombrowa and Soc-
owka, and the movement is spread-
ing.

Chair Receives Workmen.

London, Feb. 4.—A news agency
dispatch from St. Petersburg says
Emperor Nicholas yesterday receiv-
ed at Tsarskoe Selo a deputation of
workmen from the Star Printing
works. He questioned each man
closely regarding the character of
work and hours of employment, ex-
pressed satisfaction with those who
had conscientiously performed their
duty and said he hoped to visit the
establishment in person.

In discussing the delegation he
asked them to convey thanks in his
name to their comrades, who had
done good work in the service of the
state. He expressed satisfaction
with the bearing of delegates.

At the conclusion of the interview
the delegates were given permission
to visit the palace buildings and af-
terwards were entertained at dinner.

Leaders Suppress Disorder.

Warsaw, Feb. 4.—The strike lead-
ers are taking the most moderate
course in the conduct of the strike
and are doing everything possible to
prevent an outbreak of disorder.
They have divided the city in seven
zones, each of which is commanded
by a member of the strike committee.
Last night the employees of the gas
works here and at Lodz expressed
a desire to join the strikers. The
strike leaders, however, dissuaded
them as they feared looting would
ensue if there was no illumination
during the night.

Strikers Become Violent.

Sosnowice, Feb. 4.—About forty
thousand men are now out on a strike.
At a meeting of strikers yesterday
the men forcibly dragged officials
belonging to the management of va-
rious concerns to the place of meet-
ing. After the meeting 12,000 strik-
ers marched six miles to the Domb-
rowa district in perfect order, but
everywhere persuading workmen to
strike.

Yesterday afternoon strikers went
to the railway station of Sosnowice,
seized and bound the officials
wrecked the station buildings and
stopped trains in both directions.

General Strike May Be Called.

Paris, Feb. 4.—A general strike
is said, will be called tomorrow as
a result of the strike of electricians
of the Edison company. The electric-
ians will meet this afternoon to dis-
cuss future plans.

INSURRECTION IN ARGEN-
TINE REPUBLIC.

Buenos Ayers, Feb. 4.—A
report was received this
morning that an insurrection
has begun out in the interior,
and military precautions are
being taken to prevent a
spread.

Reports of the revolution
have been confirmed. The in-
surgents attacked several
police posts and an arsenal,
but were repulsed every-
where. Authorities appear to
be in control of the situation.
A sensational report is
current that two regiments
have revolted and are
marching to the capital.
The republic has been
placed under martial law for
thirty days because of the re-
bellion.

GEN. MILES TELLS OF THOSE SHACKLES

Says He Did Not Humiliate Jeff
Davis.

Placed Light Irons on Him Because
It Was Necessary—Caused Con-
federate Leader No Pain.

MENTIONS THE ARMY BILL.

Boston, Mass., Feb. 4.—Lieut.
Gen. Nelson A. Miles decided yester-
day to reply to some of the charges
which have recently been made
against him in the house of repre-
sentatives at Washington. Gen.
Miles declares no attempt was made
to heap indignities upon President
Jefferson Davis of the Confederacy
after he had surrendered to the fed-
eral authorities.

"I would suggest that the facts be
examined in the case of the shack-
ling of Jefferson Davis at Fortress
Monroe," said Gen. Miles, "and I
would say positively that there was
no attempt made to humiliate him at
that time. He did not come to pris-
on as the president of the Confederacy
or commander-in-chief of the Con-
federate army."

"On May 2, 1865, Andrew John-
son, president of the United States,
issued a proclamation, in which he
said: 'It appears from evidence in
the bureau of military justice, that
the atrocious murder of the late Pres-
ident Abraham Lincoln, and the at-
tempted assassination of the Hon.
William H. Seward, secretary of state
were incited, concerted and procur-
ed by and between Jefferson Davis,
Clement C. Clay, Beverly Tucker,
George N. Sanders, William C. Cle-
ary and other rebels and traitors
against the government of the United
States, harbored in Canada.'"

"On May 22, 1865, C. A. Dana, as-
sistant secretary of war, authorized
and directed me, in a special order,
to place manacles and fetters upon
the hands and feet of Jefferson Davis
and Clement C. Clay, whenever
he may think it advisable, in order to
render their imprisonment more se-
cure. Mr. Davis, in his book, admits
he intended to attempt to unhorse a
man and escape on his mount. Daily
attempts of plots which were formed
to effect the escape or rescue of Mr.
Davis were sent me, with directions
to take every precaution to prevent
it."

"Light anklets were placed on Mr.
Davis. He knocked over a strong
man who was helping to do it. The
anklets were kept on five days, only
while a wooden door was being re-
moved and an iron-grated one substi-
tuted. Some of the workmen were
men friendly to the Confederacy."

"The anklets gave Davis no pain
and did not prevent him from walk-
ing. They were designed to prevent
him from attempting to escape, do
himself or any one else injury.
There was not the least desire on the
part of any to place indignity upon
Mr. Davis or in any way, humiliate
him. Mr. Davis at the time was 56
years of age, strong and agile."

"Letters to me from Mrs. Davis
and from army officers as to my
humane and considerate treatment
of Mr. Davis and other statements in
my possession prove that I did treat
Mr. Davis with all the kindness that
could be shown him under the cir-
cumstances."

"If I should die tomorrow the full
bill would not affect me, but would
affect many good officers and also
the national guard. If I get through
here before July 1, I will submit it
to you. It is not a bill of economy, as
some declare. If they want to save
I can show them where they can save
millions."

Declines a Good Job.

Washington, Feb. 4.—Secretary
Elmer Bower, of the republican na-
tional committee and formerly pri-
vate secretary of the late Senator
Hanna, has declined the appointment
of assistant secretary of the treas-
ury, vice R. H. Armstrong, resigned.

Goes to North Pole.

London, Feb. 4.—W. S. Champ,
secretary for William Zeigler, has
engaged Capt. Kjeldsen to com-
mand the Arctic steamer Terra No-
va on her approaching voyage to the
far north. The Terra Nova will sail
in May.

SEACOAST PLANT TO BE MOVED AWAY

Madison Ind., Paper States
That it is to Come There.

A Tall New Building Similar to the
One Here Will Be Built
There.

MACHINERY BEING LOADED

The Seacoast Mineral company, it
seems from statements published in
Madison, Ind., papers, is to be moved
to that place, as foreseen by The
Sun several weeks ago. The concern
occupied the tallest building in Mc-
Cracken county, in Mechanicsburg,
the structure being erected for it,
two or three years ago. The plant
became involved in litigation almost
at the start, and was never operated.

The Madison, Ind., Courier, of
Thursday, February 2, says:

"Mr. L. C. Garrett has finally
completed arrangements for the
location of a new industry in Mad-
ison, and has returned to his home
in Paducah, Ky., where he is now
engaged in removing his machinery
from his present factory and load-
ing it on the cars to be shipped to
Madison. He expects to return in
about two weeks in time to receive
the machinery on its arrival. The
location of the factory has not been
determined but will be on the ar-
rival of the machinery."

"A temporary site will be selected,
as there is no building in the city
that is exactly suited to the manu-
facture of lead concentrates. Even-
tually a permanent site suited to
the needs of the business and to the
ideas of Mr. Garrett, will be erect-
ed, which will be about fifty feet
square and five stories high. When
this is done the lead ore will be ele-
vated to the fifth floor and be ground
and refined until it reaches the
ground floor which will be the finish-
ing room and shipping department."

The ore to be used will be ob-
tained from the Kentucky river dis-
trict and will be brought to the city
in barges.

"The factory will not employ ma-
chine hands, probably not to exceed ten.
Mr. Garrett comes to Madison very
highly recommended, both as a citi-
zen and as an experienced manu-
facturer, and is withal a very charm-
ing gentleman. The location of this
factory without any bonus or ex-
pense to the city is another evidence
of the splendid work done by the
Commercial club."

TOWN BURNED

With the Mercury Close to the 30
Below Zero Mark.

Prairie, Du Chien, Feb. 4.—Thirty
business houses and residences were
burned at North McGregor, Iowa,
while the thermometer registered
thirty below zero. The new city hall
was one of the buildings destroyed.
Families residing on the second
floor of some of the buildings were
rescued with difficulty. Several fire-
men had their hands and feet badly
frozen. Loss \$21,000, insurance
\$12,000.

Floated a Lion.

London, Feb. 4.—The final
contract has been signed for the Chi-
nese government gold loans of \$5,-
000,000 for the payment of the bal-
ance required for converting the
boxer indemnity into gold, says a
Peking dispatch to the times. Interest
is secured by the likin revenues of
Shanghai province.

OUTLOOK GLOOMY FOR OHIO RIVER

Much Ice and Gorges Forming
in Many Places.

Tennessee River is Expected to Be
Open Again in a Few Days—
Cumberland is Frozen.

OHIO FROZEN IN MANY PLACES.

While there is little relief in sight
in the Ohio river for rivermen, the
Tennessee river will probably be open
again and boats running within a few
days.

It is understood that the ice is
thinning out in the Tennessee river,
and extends up no further than Hirm-
ingham. It is evident it is thinning
out here. It is scarcely cold enough
for more ice to form in the Tennes-
see river and if the present weather
continues and it gets no colder, there
will be little more trouble in the
Tennessee river.

The Kentucky came in from Tennes-
see yesterday, but will probably
not go out tonight, this being unde-
cided. The Kentucky and Charles-
ton are the only boats except the
Ayer & Lord the boats working in
Tennessee river.

The river here is falling but the
stage cannot be told because it is
frozen. The ice dropped a great deal
last night and the river men think a
fall of about three inches is register-
ed. The weather is cloudy and cold,
temperature 14, with north winds.

Worse in Many Years.

Evansville, Ind., Feb. 4.—The
worst conditions in many years pre-
vail on the lower Ohio river. The
gorge at Cloverport, Ky., which form-
ed the first of the week, is growing,
and is said to be almost fifty miles
in length. People are crossing the
river at Cloverport on the gorge. The
gorge at French Islands is holding
fast, and a new gorge several miles
in length formed at Newburg, Ind.,
fifty miles above this city. A gorge
is forming a quarter of a mile above
the city, and another is forming
about a half mile below here, which
promises to fill the channel of the
river in a few hours. A gorge is al-
so reported at the Louisville & Nash-
ville railroad bridge at Henderson,
Ky. A large gorge is forming at the
mouth of the Wabash river that
promises to become several miles in
length. Green river is frozen over
for the first time in many years, and
all boats are tied up. Pond and
rough rivers are frozen over solidly,
and the Wabash is one solid sheet of
ice from Terre Haute to its mouth.

At Uniontown, Ky., the Ohio river
is frozen solidly, and people are cross-
ing on the ice. A gorge is reported
just above West Franklin, Ind.

Gorge Near Carville.

Tolu, Ky., Feb. 4.—The ice on the
Ohio river is gorged near Carville
ten miles below here, and the river
is frozen over from that place to
Cave-In-Rock, Ill., a distance of
about twenty miles. The thermom-
eter has registered zero or below for
three nights. Livestock on Hurri-
cane Island, opposite this place, is
suffering for water, as all water is
covered with ice, and the river is in
such condition that farmers cannot
cross to their stock. Business here
is at a standstill. There have been
no boats for three weeks.

Cumberland Freezes.

Cadiz, Ky., Feb. 4.—The Cumber-
land river at Canton, nine miles west
of here, was frozen over yesterday
morning so that the ferryboat at that
place could not operate. This is the
first time in many years that this has
been the case.

Crossed With Horse.

Mayville, Ky., Feb. 4.—Otis Sut-
ton, of Aberdeen, brought a horse
across the river on the ice, also an
800-pound monument was brought
over on a sleigh. A large crowd wit-
nessed the scene.

Frozen Up at Cincinnati.

Cincinnati, Feb. 4.—The Cincin-
nati harbor and river for miles above
and below the city is completely
blocked with ice. Only one towboat
is now running. The Relief is en-
gaged in cutting a channel in the ice
to allow the moving of coal to elevators
from the Ludlow coal harbor. Rivermen
do not expect a break-up

VOTE WEDNESDAY ON RAILROAD BILL

Republicans Adopt it as a Party
Measure.

The Opposition Wanted a Postpone-
ment But Was Defeated By An
Overwhelming Vote.

DEBATE WILL OCCUPY ONE DAY

Washington, Feb. 4.—The Repub-
licans of the house in conference
yesterday afternoon adopted as a
party measure the bill extending
rate making powers to the inter-
state and foreign commerce commis-
sion, as agreed upon by the commit-
tee on interstate and foreign com-
merce and known as the Esch-
Townsend bill. The conference in-
structed the house committee on
rule to bring in a rule providing for
consideration of the measure be-
ginning at 11 o'clock Tuesday morn-
ing next and continuing until 4
o'clock Wednesday, when a vote
shall be taken. No amendments will
be allowed to the bill, although the
first vote is to be taken on the Day-
vill bill, as the Democratic substi-
tute for legislation on the railway
rate subject.

The conference which lasted three
hours, developed opposition to the
measure. The only test vote taken
was on a motion to postpone the
matter for further conference next
Tuesday. This was lost, 44 to 107.
Efforts were made to amend the bill
during the conference but failed.
Panic was found with bill on the
ground that it did not include regu-
lation for the private car evil and
terminal charges. Advocates of the
bill contested these criticisms, claim-
ing that authority was contained in
the bill to correct the complained of
evils.

The change of the meeting from
a caucus, as the call stated, to a
"conference" leaves the members
participating free to follow their
own inclinations. It is understood
that the opposition may organize
with the purpose of joining the mi-
nority in the house in a vote on the
rule prescribing the manner of con-
sideration of the bill in the house.
These plans, however, have not been
actually and definitely decided on.

A SICK WIFE.

Caused a Prominent Chicago Man
to Suicide.

Chicago, Feb. 4.—John B. Scully,
secretary of the Scully Steel and
Iron works, and a successful busi-
ness man, committed suicide in a
deserted part of Humboldt park, by
shooting himself.

Fatigue and lack of sleep conse-
quent upon constant attendance at
the bedside of his wife, who is criti-
cally ill, are believed to have caused
temporary insanity during which
Scully ended his life.

IS "DOVE" DEAD?

Note Found Stating That He Is No
More.

Joliet, Ill., Feb. 4.—William Par-
ker, of 115 South bluff street took
to the police station a cup found on
the west end of the Jefferson street
bridge over the river, together with a
note which reads:

"This ends all. DOVE."
The note was on a piece of white
scrap paper. Capt. Murphy thought
it too cold to drag the river for the
body of the murderer of Chauffeur
Hate.

TWO KILLED.

And Several Hurt by New York Cen-
tral Wreck.

Utica, N. Y., Feb. 4.—An engi-
neer and fireman were killed, and
many passengers were injured as a
result of an accident at 2 o'clock this
morning on the New York Central
three miles from here.

An engine drawing the train from
Boston and New York exploded, and
toppled over. The train from the
west ran into it and was derailed,
and several Pullman cars rolled over
a slight embankment.

for weeks. The ice is becoming more
solid. All boats are considered in
excellent ice harbors. Boatmen
at Cincinnati will again be provided
with food at the city's expense.

STARTLING RUMORS IN GRAND RIVERS

Reported the I. C. Has Bought
the Iron Furnaces There.

Rumored It Will Make Its Own Iron
and Start a Rolling Mill
There Soon.

NO CONFIRMATION RECEIVED.

A rumor that it is impossible to
either deny or confirm is now agitat-
ing the people of Grand Rivers, Ky.,
and vicinity.

It is not known who started the
rumor, but it seems well founded
enough to justify lots of people in
believing it. The iron furnaces were
built years ago at Grand Rivers by
Thomas W. Lawson, of "Frenzied Fi-
nance" fame, and the little town has
lived through several "booms."

According to report the Illinois
Central has bought the furnaces to
operate and make iron solely for its
own use. There is plenty of ore in
that vicinity, and with the railroad
using its unlimited facilities to get it
it is believed that it could make iron
cheaper than anyone else, and cheap-
er than it can buy it.

The Grand Rivers furnaces were
only recently put in good shape and
run for a time, but soon suspended
again. They are said to be among
the finest and most complete in the
country, the great difficulty always
having been that the ore was inacces-
sible.

A report in connection with that
that the Illinois Central has bought
the furnaces to operate for its own
benefit is that it will establish a roll-
ing mill at Grand Rivers, which
would make the dead little town one
of the most important in this section
of the state.

It is impossible to find out how
much truth there is in the report, as
there is no one here who knows any-
thing about what the road has done.
If the furnaces have been purchased
it was through officials at Chicago.

WANTS TO GO BACK.

Cole Younger Asks That Conditions
of Pardon Be Eliminated.

St. Paul, Feb. 4.—Gov. Johnson
has laid before the pardon board a
letter from Cole Younger, the former
bandit, who was pardoned after
serving 25 years of a life sentence,
asking that conditional features at-
tached to his pardon be eliminated.
By the terms of the pardon Younger
is prohibited from again living in
Minnesota and this is especially dis-
tasteful to him. While the matter
was discussed in an informal man-
ner by the board it is not likely that
favorable action will be taken on the
matter.

Peace in China.

New York, Feb. 4.—The Chinese
minister here has received a cable-
gram from his government stating
that absolute peace prevails in Chi-
na and that there is no sign of anti-
foreign agitation. He has communi-
cated this information to the state
department.

CANNONADE HOT ALL ALONG THE LINE

Russians Have Been Repulsed
on Every Hand.

Alleged They Mutilated Japanese
Dead—Russian General to Be
Recalled.

ECHO OF PORT ARTHUR'S FALL.

Tokio, Feb. 4.—Manchurian head-
quarters telegraphing yesterday says
that on that day the Russian resumed
their activity in front of the Japa-
nese left and that there has been
constant skirmishing along the fronts
of both the opposing forces, exchang-
es of heavy artillery fire taking place.
The Japanese again charged the Rus-
sians with the mutilation of their
wounded. Portions of the report fol-
low:

"On Wednesday (Feb. 1) in the
direction of the right, small bodies
of the enemy attacked us in all di-
rections. Our outposts repulsed
them."

"On Thursday (Feb. 2) from 6
o'clock in the morning the Russian
artillery on the west front of the Ta
Mountain and Luchienlungung shell-
ed Fangshen and Putaow and their
vicinities. The enemy's infantry im-
mediately surrounded Fangshen, but
we repulsed them."

"In the direction of the center on
Thursday the enemy's artillery, situ-
ated about a mile and a quarter north
of the village of Shakhie and on Wen-
pao Mountain, bombarded the south-
ern heights of Shakhie village."

"Constant collision between scouts
took place to the north of Chengling-
tzu and Yaotun."

"In the direction of the left on
Thursday morning the enemy's artill-
ery fiercely bombarded Chengling-
pao. Our artillery responded."

"According to a reliable report the
enemy has built a railroad from Such
inton, which is five miles north of
Lamuting, to Suhapao and has opened
traffic thereon."

Furnishing War Supplies.

Glasgow, Feb. 4.—The St. Peters-
burg correspondent of the Herald
wires that he had seen quantities of
German rifles, bayonets and barbed
wire cutters forwarded to Gener-
al Kuropatkin. The Russian officials,
he says, would call this breach of
neutrality by any one of the great
powers.

General to Be Recalled.

St. Petersburg, Feb. 4.—Your
correspondent is informed that Gen.
Gripenburg, in command of the
Second Manchurian army, will be
recalled. The recall is due to pri-
marily the disastrous outcome of
the recent series of engagements
south of Mukden.

The Odd Fellows have arranged
for a meeting at the Kentucky Sun-
day afternoon at 2:30 when Grand
Master D. L. Bailey, of Louisville,
will address the meeting on the sub-
ject, "The Relationship of the Order
to the Church." The meeting will
be free, no admission being charged.

IN DISTRICT COURTS.

Edna Bonner of Milton Russell's Daughter.

Chicago, Feb. 4.—The runaway marriage of Milton Russell's daughter, Edna, has ended in the divorce courts, in a petition filed in court here today, Abbot L. Einstein, the husband, is charged with being extravagant, lazy and brutal. "He refuses to work and I am compelled to support him," is one claim of the petitioner.

Failing to get money from his wife, he is declared, Einstein took \$2,000 worth of her diamonds and spent the proceeds in gambling. Six weeks after marriage, Einstein is alleged to have beaten his young wife severely.

He is alleged to have attacked her many other times. Twice, it is declared, he threatened her with a revolver in their disputes about money.

Jas. Kirkwood, as Henry Conby in "Arizona" at The Kentucky Wednesday Night.

A Scene From "Coon Hollow," at The Kentucky Monday Night.

THEATRICAL NOTES

Monday night—"Coon Hollow" Wednesday—"Arizona." Saturday, Matinee and Night—"Princess Chic," the big comic opera success.

"Arizona," which will be presented at The Kentucky Wednesday night, is so well known that it needs no introduction to the story and the success. The play is a comedy drama which has received such an enormous amount of praise in America comes to this city, this season, with a fresh scalp at its belt, having but recently returned from a triumphant tour of all the principal cities of England and having received the personal endorsement of King Edward VII. "Arizona" is

present theatrical era. The story of "Arizona" is interesting throughout the entire four acts and there is not a moment from the rise to the fall of the curtain when the interest of the spectator flags. The characters are all taken from life and are a correct portrayal of the people who go to make up the inhabitants of the state from which the play takes its name. The scenes and incidents are laid in the beautiful Aravaipa Valley, the center of interest being the ranch of a well-to-do cattleman and the home of Colonel Bonham and the 11th U. S. Cavalry at Fort Grant. The picturesque scenery is all painted from sketches made on the spot by the eminent painter, Mr. Frederick Remington, and such has been

"Arizona" is an American play and will live long in the hearts of the American theater-goers.

The New York Herald has the following concerning "A Romance of Coon Hollow," "an originally produced at the Booth street theater. 'It is a very romantic comedy, but it has a melodramatic flavor, being well provided with thrilling incidents and exciting situations, and embracing some very realistic mechanical effects, which served to enthrall the spectators. The piece was beautifully staged, every attention being paid to detail that the audience was well pleased, may be inferred from the heartiness and frequency of the applause bestowed, and by the recalls with which the leading performers were favored during the evening. The scenes representing 'Coon Hollow,' the cotton compress in operation, were very realistic and elicited merited applause. Some very beautiful and novel effects were introduced." "A Romance of Coon Hollow," with the original New York cast and scenery, will be seen at The Kentucky Monday night.

The Kirke Lashells Comic Opera Company presenting "The Princess Chic" is claimed as one of the foremost American musical organizations, and its engagement in this city may properly be regarded as one of the chief events of the operatic season. It is claimed that Composer Julian Edwards has caught the spirit of Lashell's lyrics, and that the result of their collaboration is an opera comedy such as has seldom appeared on the stage. However, the chief thing in modern operatic work is gorgeous mounting, really laughable comedy and pretty girls. These the Kirke Lashells Opera Company offers in plenty, as well as a competent cast of principals, headed by the talented prima donna, Sophie Brandt.

"Princess Chic" comes to The Kentucky for a matinee and night performance next Saturday.

"The Irish Pawnbrokers," one of the standard farce comedies is looked for an early appearance at The Kentucky Tuesday, February 14. "The Pawnbrokers" are said to be up to their former standard, which means lots of new music, plenty of comical numbers, the usual petty

chorus, and a complete scenic equipment. The company is as usual headed by Wesley and Mack and Mazie Trumbull.

The Chattanooga Times says: "THE ENGLISH DAISY," Murray and Mack Score Pronounced Hit at Two Performances.

Two S. R. O. audiences saw the performances of "The English Daisy" and greeted the production with an enthusiasm that showed the musical comedy a great success. Murray and Mack are in a class all their own. The ordinary Irish comedian has grown "stale, flat and unprofitable," but every year they produce more laughter than the majority of comic opera stars. Theirs is the old Irish comedy work, making up and all, but there is that bubbling wit that throws their audiences into a paroxysm of laughter when others would not cause a smile. It is because of their own old way that Murray and Mack pack the houses wherever they appear.

"Mr. Jekyll and Mr. Hyde" was played at The Kentucky last night by the Dudley Stock Co. to a good audience. This company deserves a crowded house at every performance, but the weather has been so bad that few companies in the country could have drawn many people. Those who have witnessed the work of Mr. Dudley and Miss Aubrey and of their capable company, are delighted with it, and it is regretted that every theater goer did not go out and see for him or herself that these shows are equal to many of those for which we pay \$1 or more to see. "Dr. Jekyll and Mr. Hyde," Mr. Dudley made an especially strong impression earlier in the season.

The Week In Society.

FEBRUARY.

February, tall and trim,
Straight of form and strong of limb;
Keen gray eyes and honest face;
Lines where cares have left their
trace;
Homely but hooded head;
Kerchief over bosom spread;
Strong, stout shoes and shortened
gown;
What cares she though winter
frown,
And the storms of sleet come down?
— Anna Nell Gilmore, in February
Lippincott's.

February and Society.

Miss February makes her bow this week, and while it is a little early to forecast her social success, she is not exactly a promising maiden so far. She is too much on the "billy regular, splendidly naïf" order at present and will have to forsake her frigidity considerably to keep society up to anything like its present standard of gaiety. And a glance at all the predictions for February give little hope for this, they run the scale of bad, worse, worst and like a pirate she haunts the black flag of cold waves over in one's face.

Either society will have to rise superior to February vagaries, and entertain without the weather incentive that makes life gay, or else conform into them and enjoy life as a great ice carnival, with skating, coasting and sleighing the chief end of living. Decidedly the coy, sensibly, violet-like damsel, February, that used to come with flowers and shimmering evening gowns, a dainty harbinger of spring, is a creature of the past, and the sooner we learn to take her as she is the better we will like her, perhaps.

A Fitting Honor.

Miss Ora V. Leigh will go to Owensboro on the 16th to attend the woman's committee conference at the state Y. M. C. A. convention to be held Feb. 16-19. The woman's meeting is one of the new features that will distinguish this state convention, and really marks an epoch in woman's committee work, as it accords woman a public recognition and place in Y. M. C. A. work not heretofore given her. This meeting will be held on Friday afternoon and there is an effort being made to have Mrs. Beckham to preside over it. Miss Leigh's paper will deal with "The Relationship of the Woman's

Committee Towards Meeting the Special Needs of the Association," and her clever pen and practical experience in the work will give something very worth while. Her exceptional fitness for the task was recognized by State Secretary Rosevear, which gives the honor a double force.

Miss Leigh will be the guest of her cousin, Mrs. W. D. Nowlin, formerly Miss Annie Wood, who has visited here on several occasions.

D. A. R. Gossip.

The following clipping will prove of interest to D. A. R. chapters all over the south. The news comes through a New York exchange. It says:

"The D. A. R. are naturally interested in the question of Mrs. Fairbanks' successor in the presidency of their society. The next congress will be held in April, and will be the first one to meet in the new Continental Hall. The strongest candidates so far are Mrs. Russell A. Alger, of Michigan, and Mrs. Donald McLean, of New York. Mrs. Charles Warren Lippitt, wife of a former governor of Rhode Island, is also mentioned as a candidate with a strong following. Mrs. Daniel Manning has been spoken of, but has definitely declined the honor. Mrs. Manning does not approve of ex-presidents standing for office. Most of the minor candidates are wives of senators. The following are among them: Mrs. Dolliver, of Iowa; Mrs. Burrows, of Michigan; Mrs. Elkins, of West Virginia; Mrs. Stone, of Missouri; Mrs. Foster, of Washington, and Mrs. Buchanan, of New Hampshire."

Entre Nous Club.

Miss Robbie Loving entertained very delightfully on Friday afternoon at her home on Monroe street in honor of the Entre Nous club. There were six tables at cards, and the Dutch idea was attractively carried out, the tables and the prizes were quaint Dutch pictures. The club prize was won by Miss Hetta Hatfield. Miss Faith Langstaff captured the guest prize and presented it to Miss Blanche Buckner. A pretty three-course luncheon in Dutch style was served at the close of the game.

The guests were: Mrs. Henry Grace, Misses Virginia Kinney, of New York; Louise McNamara, of Wichita; Retta Hatfield, May Owen, Benah Rogers, Lillie Mae Winstead,

D. A. R. Meeting.

A very delightful meeting of the Paducah chapter, Daughters of the American Revolution was held on Friday afternoon with Mrs. Charles K. Wheeler. Miss Helen Lowery discussed "The Opportunities of the Daughters of the American Revolution" in a very fine paper. Mrs. Charles Wheeler gave a reading on George Washington. Attractive music was rendered by Mrs. George H. Hart and Miss Mamie Dryfuss. A pretty course-luncheon was served with carnations and fern as souvenirs for each guest. Several names for the membership were presented and voted on by the chapter. It was decided to hold an open meeting with the regent, Mrs. Hubbard S. Wells, on the evening of February 22nd, and celebrate with appropriate ceremonies the birthday of Washington. Besides the chapter there were a number of visitors present.

C. & St. L. road here and was found at his home on North Twelfth street within a short time after the police were notified that he was wanted.

Daily Thought.

"The simple life is a life in which
self is master and possessions and
conditions are servants."

The Weather.

Generally fair and not so cold to-
night. Sunday increasing cloudiness
and slowly rising temperature.

WANTS TO BE "GOVERNOR" Mc- CHESNEY.

It is presumed that Secretary of
State H. V. McChesney has abandon-
ed his idea of seeking a minor state
office, and since rising in a few years
from a country school teacher to sec-
retary of state, he has decided that
it will be about as easy to become
governor as anything else, and will
make a stall for that nomination. In
fact, "Professor" McChesney has
found getting office so dead easy
when you once get a start, that he
doubtless feels confident of getting
anything he wants.

Here is his boom, started in the
Livingston Banner, Col. Eld Reed's
paper. Mr. Reed himself is now
holding a state office, and it is pre-
sumed that the following is Prof.
McChesney's first announcement. At
any rate, as Mr. Reed is serving un-
der Secretary of State McChesney as
his assistant, he ought to know what
he is about, and here is what the
Banner says:

"The editor of the Banner is pleas-
ed to note the favorable mention our
own Harry McChesney is receiving
from the state press. Some of the
boys have placed him 'in the run-
ning' for Auditor. The Banner has
another guess. While we are not
"authorized to announce," it is our
opinion that should Mr. McChesney
enter the next state races it will not
be as a candidate for Auditor, but as
a candidate for Governor of this
proud commonwealth. If we are cor-
rect, and H. V. McChesney enters the
race for Governor, you may "go
broke" that Livingston county will
furnish the next chief executive of
Kentucky. Mac has a way of "get-
tin'" things he goes after. "Govern-
nor McChesney" sounds good."

A kick is of course being raised in
official circles over the streets select-
ed to be paved. It would not be any-
thing remarkable if the majority in
the boards defeated the improvement
of every street in the city on which
any of the crowd owns property. It
is not the interests of the people that
these "statesmen" have at heart. It
is their own personal interests—their
own selfishness, that actuates them.
One official owns several hundred
feet of property on one of the streets
proposed to be improved. It is re-
markable how many people he has
been able to find who are "opposed
to the improvement." What do these

is going to do with the money it vot-
ed for bonds? Where is it going to
spend it? Appoint an investigating
committee and find out what prop-
erty owners feel able to pay their share
of the cost, and then order those
streets improved, despite the advan-
tability or necessity of paving other
streets?

Y. M. C. A. NOTES.
The usual Y. M. C. A. service will
be held tomorrow afternoon at 3
o'clock at the association building,
conducted by General Secretary God-
frey.

The Y. M. C. A. will be in charge
of the Epworth League service at
the Broadway Methodist church at
6:30 Sunday evening.

A Y. M. C. A. man will also fill the
pulpit at Trimble street Methodist
church tomorrow morning.

The gymnasium committee will
meet tonight. The committee is giv-
ing attention to many details of the
gymnasium and has already purchas-
ed a striking bag.

The plans for fixing the baths are
well under way, and they will short-
ly be in good order, and ready for
use.

A number of accounts have been
paid. The ladies have already ex-
pended several hundred dollars, and
are settling up as fast as possible.
The bad weather has been a draw-
back, preventing them getting around
as rapidly as desired.

The upstairs rooms at the associa-
tion building are being re-furnished
by the ladies. The old beds and fur-
niture have been sold, and the rooms
outfitted with new iron beds, sani-
tary springs, new curtains, etc. They
will be most attractive when complet-
ed.

The local Y. M. C. A. will send a
good delegation to the coming state
convention at Owensboro. The wo-
man's committee will have represen-
tatives as well as the men. The va-
rious new features will make it the
strongest yet held.

JUDGE SWAYNE.

Admits the Facts But Denies Their
Seriousness.

Washington, Feb. 4.—Through
his counsel, Judge Swayne has made
formal response in the senate to the
articles of impeachment made by the
house. The answer was a formidable
document in point of size. Each of
the twelve articles of impeachment
was answered at length. In every
case the fact charged was admitted,
but explained from Swayne's point
of view and in addition it was con-
tended that even if conditions were
true as charged they were not of a
character to justify proceedings for
impeachment for "high crimes and
misdemeanors."

The answer was read by ex-Senator
Thurston and when he concluded
the senate issued an order re-
quiring the house to file its formal
reply by next Monday and directed
that all pleadings shall be in by the
9th so that the trial may proceed on
the 10th.

The proceedings attracted a large
audience to the galleries and most of
the senators were in their seats.

MATTERS OF NOTE ABOUT CITY HALL

City Supervisors Tired of the
Job But Will Remain.

License Committee Receives a Pet-
ition From Retail Merchants
Relative to Loan Com-
panies.

THE REDUCTIONS IN LICENSES

The board of city supervisors,
Messrs. J. V. Greif, Ed. Ashbrook and
Ell G. Boone, are getting tired of
their job, and last night asked the
finance committee that recommendation
be made that they be relieved
from further duty, as the work is
hard and confining and keeps them
from their private business. They
were prevailed upon to remain at
least awhile longer. It is suggested
to block off the city into plats and
have a basic valuation of property
for each portion, the basis to remain
the same each year for four years,
obviating the necessity for a session
of the supervisors every year. The
present supervisors say this would
require months of work, and conse-
quently they cannot afford to spend
their time doing it. The board has
virtually completed the basis for
assessment down in the business part
of the city, but has not made much
progress in the residence portion.

The city is hard after the small
loan companies that thrive on extor-
tion and usury, and will attempt to
revoke the licenses already issued
and prevent the issuance of any
more. The Retail Merchants asso-
ciation has petitioned the city to re-
fuse a license, and this has seem-
ingly made Mayor Yeiser and the leg-
islative boards more determined than
ever to oust the companies from busi-
ness. None will be spared, as no dis-
tinction can be made. They must
all be treated alike. Cases have been
reported where property left as col-
lateral for a loan has actually been
disposed of before the allotted time
for repaying the loan had expired.
In some instances jewelry is alleged
to have been given away or sold by
employees of these companies to
friends, and when the owner had re-
paid the loan, and demanded back
the collateral, found that it had been
disposed of. While generally recover-
ed, in instances reported to officers
such valuables as rings had been
ruined for the rightful owner by be-
ing made larger or smaller to fit
someone else.

The license committee last night
decided to recommend a reduction
from \$150 to \$100 on the theater li-
cense, from \$75 to \$55 on the ice
men, and that of tobacco inspector
from \$25 to \$15. All other requests
for reductions in license were turned
down by the committee.

CHEMICAL ANALYSIS

Reveals That "Pe-ru-na is Calculated to
Tone up the System, Restore the Func-
tions and Procure Health."

SO SAYS PROF. L. J. MILLER, CHEMIST.

Prof. L. J. Miller, late Professor of Chemistry and Botany of the High School
of Ypsilanti, Mich., writes from 327 N. Clark Street, Chicago, Ill., as follows:
"As several of my friends have spoken to me of the favorable results obtained
through the use of Peruna, especially in cases of catarrh, I examined it most
thoroughly to learn its contents.
"I found it composed of extracts of herbs and barks of most valuable medicinal
qualities combined with other ingredients, delicately balanced, calculated to tone
up the system, restore the functions and procure health.
"I consider Peruna one of the most skillfully and scientifically prepared
medicines, which the public can use with safety and success."—PROF. L. J.
MILLER.

NEWS OF THE RIVERS.

Mississippi Is Gorged.

Hickman, Ky., Feb. 4.—The Miss-
issippi river is choked with ice at
this place, for the first time in three
years. The gorge begins a short dis-
tance above town and extends a long
way up the river.

There are no boats here, and so far
as can be learned no damage has
been done to the adjacent country.

Boat Couldn't Land.

Calro, Ill., Feb. 4.—A Cotton Belt
passenger train from Newport, Ark.,
with 200 passengers, was on board
the big transfer boat Henry Mar-
quand in front of this city. In the
middle of the Ohio river, unable to
land, for several hours before mak-
ing a landing. She had to fight the
ice for several hours.

purchased by Capt. P. H. Johnson, of
Evansville, Ind. It was owned by
Capt. H. Koplar, of St. Louis. The

boat is in the Ohio river.

"Builds up the System."

Hon. Joseph H. Ridgeway, Secretary
of the American Anti-Traff Society,
writes the following letter from the
Grand Central Hotel, St. Paul, Minn.:

"It is with great pleasure that I en-
dorse Peruna as
an honest, medi-
cine, competent
to do all it
claims. I have
used it several
times and know
of nothing that
cures so com-
pletely, and at
the same time
builds up the
system.

"I have re-
commended it to
a number of my
friends and always
feel that I do them a
service for I know how satisfactory the
results invariably are. I only wish
every family had a bottle—it would save
much sickness and doctor bills."—Joseph
H. Ridgeway.

"Feel Better Than for Five Years."
Mr. James H. Taylor, Roberts, Ind.,
writes:

"I am at the present time entirely
well. I can eat anything I ever could.
I took five bottles of Peruna, and feel
better now than I have for five years.
I have doctored with other doctors off
and on for fifteen years, so I can recom-
mend your medicine very highly for
stomach troubles. I take great pleasure
in thanking you for your free advice
and Peruna."—James H. Taylor.

"I Enjoy My Meals as I Used to."
Mr. J. W. Pritchard, Wolf Lake, Ind.,
writes:

"I am pleased to say that I have been
cured of catarrh of the stomach by Pe-
runa. I could hardly eat anything that
agreed with me. Before I would get
half through my meal my stomach
would fill with gas causing me much
distress and unpleasant feelings for an
hour or two after each meal. But,
thanks to your Peruna, I am now com-
pletely cured, and can eat anything I
want to without any of the distressing
symptoms. I can now enjoy my meals
as I used to, and it is all due to Dr.
Hartman and his wonderful medicine,
Peruna.

"It has been one year since I was
cured, and I am still K. yet, so I know
I am cured."—J. W. Pritchard.

Dyspepsia is a very common phase of
summer catarrh. A remedy that will
cure catarrh of one location will cure it
anywhere. Peruna cures catarrh where-
ever located. That it is a prompt and
permanent cure for catarrh of the
stomach the above letters testify.

If you do not derive prompt and satis-
factory results from the use of Peruna,
write at once to Dr. Hartman, giving a
full statement of your case and he will
be pleased to give you his valuable ad-
vice gratis.

Farmers Telephone Service.

The East Tennessee Telephone Company offers to farmers and others who own or desire to build and maintain their own telephone lines, a most liberal proposition for connection with its local and long distance system, and requests those interested to give it an opportunity of presenting its plans. By the use of this greatest of modern inventions, the farmer can, at a minimum cost, keep in close touch with the markets and on the days that the highest prices are offered for the produce of the farm, he can be reached over the telephone by his merchant or confidential advisor, and thus frequently save the cost of his telephone service for an entire year. These interested in this service are invited to confer with the Company's nearest local manager, or have their wants known direct to the general office at Nashville.

WINTER INSPECTION MAY BE ABANDONED

The Test Injures the Boilers of Steamboats.

Rear Admiral Symonds Stated He Would Probably Recommend a Discontinuance.

ADMIRAL LEFT FOR NASHVILLE.

Rear Admiral F. M. Symonds, who has been here inspecting the methods of Local Inspectors Green and McDonald, regarding steamboat inspections, has gone to Nashville, but said before leaving that he would immediately recommend at Washington no more steamboat inspection in the winter months.

"Rear Admiral Symonds is a sensible man in this respect," a well known boat man declared today, "and he will have the endorsement of every inspector and steamboat owner on the river. Boats are inspected by water pressure and in the winter time the steel and iron are not in the best shape for a test, and it is injurious to boilers, pipes and in fact to the entire mechanical part of a boat. The best inspection cannot be made in the winter, either, and if Rear Admiral Symonds will do what he says he will, he may succeed in having inspections made only during the summer, the proper time to make them."

Admiral Symonds inspected but one boat here, the Wilford. He put on the pressure and found the boat all right. The Dick Fowler and other boats could not be inspected by pressure because no boat with steam up could get out to them. He looked over all crafts in the harbor, however. He simply struck Paducah at a time when a perfect inspection was impossible, and rather than remain here indefinitely, he went on to Nashville to inspect. He may return later, but it is doubtful.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after onions and other odorous vegetables.

Charcoal effectually cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

BASEBALL NOTES.

A Number of Players Are Signing Up at Present.

Besides a few dates with Southern league teams, Manager Henry Lloyd has written Chicago and Boston, of the American league; Rochester, Eastern; Cleveland, American league; St. Louis and Louisville teams. He expects to have many games here this season before the opening of the league.

Manager Lloyd has written Micky Finn, who has a reputation for making schedules, to make one for the Kilty league. Finn made one for the South Atlantic, which proved to be one of the best last season. Lloyd wants a 130-game schedule instead of a 120-game, as last year. He wants the playing to begin in April and cease in October.

Le Compte, and Claude Meredith, with Paducah two seasons ago, will go to Meridian, Miss., in the Cotton States league this season. Long also expects to get there but Henderson claims he is held by the reserve clause.

George Wilkinson may be field captain and play first base for Princeton this season.

B. Preston, who did good work in the outfield on the Itushville team last season, has been secured by Eddie Kolb for Vincennes.

Clyde Goodwin, another one of the Vincennes twirlers whose splendid pitching attracted the attention of the National leaguers last fall, has signed up a contract with the Pittsburgh National League team and will train with the Pirates at Hot Springs at which place it will be decided whether he is warm enough for the company or not.

(Rube) Whitley, a pitcher of the Vincennes, Ind., base ball team, has been signed by Manager Clark Griffith to pitch for the New York American league team next season.

Wernecke, of last year's Henderson team, has been secured by Princeton. Lyons, a shortstop, has also been secured. Ferd Wassman, a Vincennes Twirler of much promise, will also be given a trial by Manager Ray.

Pitcher Kramer, who has been pitching independent ball at St. Louis, may be signed by Cairo.

That some of the Clarksville players will be seen wearing Vincennes uniforms next season is something that is pretty near a sure thing. Several of them will be too expensive for Princeton and Manager Ray will give Vincennes first chance at them. As Ray is very anxious to get hold of Harris, who was one of the best twirlers in the Kilty last season, this trade would not be a surprise.

NEW CITY HOSPITAL ALMOST COMPLETE

Ready for Its Name and the Furnishings.

Next Week the General Council Will Consider Its Management—Dr. Stewart to Equip a Ward.

IT IS A HANDSOME BUILDING.

The new city hospital, an institution of which the city may well feel proud, is about complete and ready for furnishing. The contractor says he will have the building ready for acceptance by March 1st, and already active plans for furnishing and operating the institution are being made.

The building of the new hospital is the result of the combined efforts of progressive citizens and the medical fraternity, and one of the prime movers in the latter was Dr. J. G. Brooks, who has served the city in many ways since his residence here. While the other physicians did much work and stand out prominently in the move, a great deal of credit naturally goes to Dr. Brooks, who by remarkable coincidence was instrumental in securing the old city hospital, which was built in 1871 when Dr. Brooks was city physician.

The hospital was built on the latest lines and is modern in every respect. It is a huge two-story brick

\$150 a year; janitor, \$25 a month, or \$300; house boy, \$3 a week, or \$150; six nurses, \$2 a week each, or \$624; a cook, \$4 a week, or \$208. This shows \$1,114 for help. The electric light is furnished from the city plant and is not charged up as costing anything. The Owensboro Water Works Company gives the water free. The janitor cultivates the large garden in the summer and attends to two good cows and these items help considerably and supply good fresh vegetables and milk. Provisions and medicine make up the principal other items. The building cost the city about \$15,000 and the instruments and furnishings for the operating room cost about \$1,000.

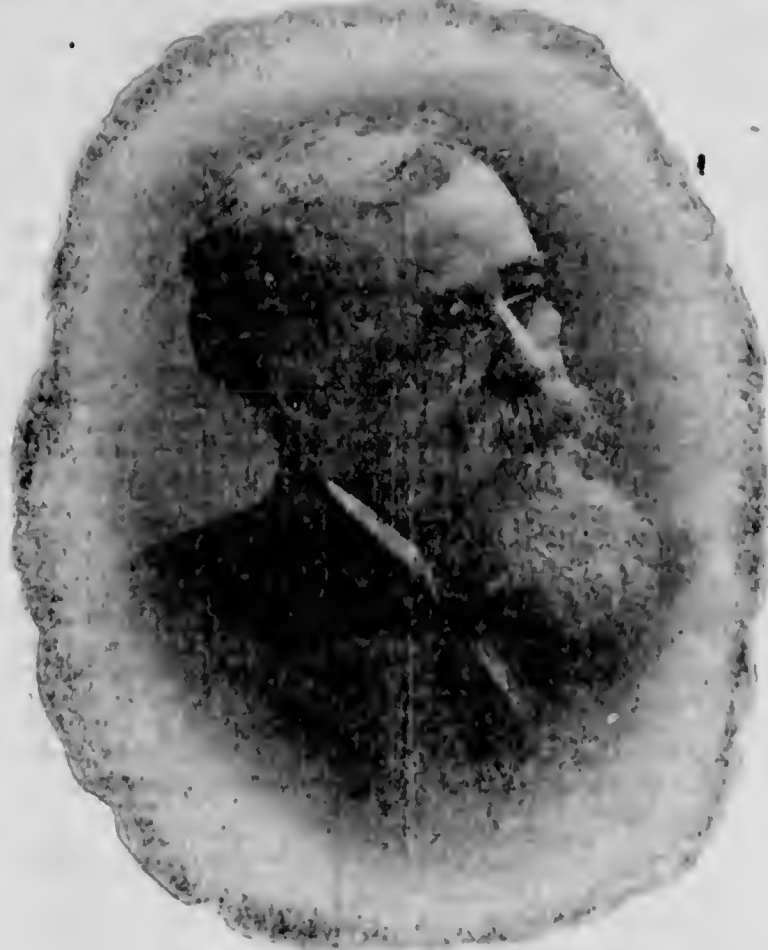

"At first the trustees made a rate of \$5 and \$10 a week for private patients, but those rates were soon abandoned for the best accommodations as being entirely inadequate."

The doctors have studied the matter over more carefully than the members of the legislative board and are capable of making good suggestions, but the boards can adopt any plan they see fit. The doctors will be present, however, next week to explain their recommendations.

Another important matter is the selection of a name for the hospital. This has been left to a committee composed of councilmen, aldermen and doctors and a meeting was attempted this week but failed. If possible the meeting will be held this week and a name given the new institution.

The matter of furnishing the hospital will also be considered at the meeting of the boards next week. This will probably be assigned to some committee for bids.

Anyone who cares to visit the hospital may do so as the doors are open

J. G. Brooks, M.D.

building built in the shape of a T. It has a large basement used for a laundry and store room. The offices and reception rooms are on the first floor over the basement. On this floor are also two wings for charity patients, one for the white and the other colored. By arrangement the first floor will be used by women and the second, on top, by the men.

The culinary department and nurses' quarters are on the second floor in the rear and also are the dispensary and operating rooms. The remainder of the building is used for private wards, there being about ten at present.

The McCracken County Medical Society has formulated plans for the operation of the institution and the papers are in the hands of Mayor D. A. Yelzer, who will present the matter to the legislative boards next week. In Owensboro a statement of the expenditures and receipts, etc., has been made out and to show the success of the operation of the Owensboro hospital under practically the same way the local doctors suggest, the following can be said:

"Last year the total amount collected from pay patients was \$2,242.20. The amount appropriated by the city council for the support of the hospital was \$2,500. However, there was \$59 collected and turned into the hospital fund by hospital nurses for services rendered outside the institution and there was a balance of \$490.79 carried over from last year's fund to this year, which leaves the total cost of operating the hospital for the last year at \$3,442.11.

"Here is where the money goes, briefly: Matron, \$35 a month, or

to all, but the regular formal opening will, of course, not come before the house is furnished and ready for service.

Dr. P. H. Stewart is the first Paducahan to offer to equip a ward at the new hospital. He has left, with the mayor the following:

Paducah, Ky., Feb. 3, 1905. To the Hon. Mayor and General Council:

Gentlemen: With your consent and permission I hereby agree to furnish and equip one private ward at the new hospital, same to conform to the furnishings of the other private wards and said ward to be subject to and at the disposal of the hospital board at all times.

Respectfully,

P. H. STEWART.

Some of the secret orders want to equip wards for their members, but the hospital committee, as might have been expected has never held any meeting to pass on the requests, and it is not known whether any of the orders will be allowed to have wards there or not. Dr. Stewart's offer is a good one, and one that the public will appreciate. No one is more familiar with the needs of such wards in the city hospital than Dr. Stewart, who was for several years city physician. Now that he has started the ball, it is expected that others will be quick to follow.

"I thought that had surrendered all arms and had taken the oath to remain neutral?"

"His men were armed with staves only, and so Wentworth, better equipped, held his own against them."

"What view did the court take of this affair?"

"They thought it merely a faint to cover the retreat of a discovered traitor. The night, as I said, was dark, and our men, being mounted, could not move silently. Knowing the house would be searched if Wentworth was hidden, this plan of seeming enmity against him was prepared beforehand in case of discovery."

"What family has he?"

"His two sons are supposed to be with the king at Oxford. There is one daughter at Rudby Hall."

"Umph! Is this the young man who is said to be a son of the late scoundrel, Stratford?"

"Yes, excellency."

"In that very blood is hatred of the people, continued and all arrogance. At least he must be a royalist. And yet—and yet—where was he brought up?"

"On the estate of Sir John Warburton, dead these some years back. Warburton was his grandfather."

"Where is the Warburton estate?"

"It adjoins the lands of Rudby."

"A-h! Is the boy's mother living?"

"No. His only relative is a sister who resides to be the most bitter king later in all the land."

"Is there not a chance the boy was on his way to see his sister?"

"It was thought not. She has been at liberty to visit him here and has done so on various occasions."

"Has Wentworth ever been in action?"

"Oh, yes, excellency, and he acquitted himself bravely enough."

"No hanging back no wavering in the face of the foe?"

"No, excellency."

"Umph! Send Captain Bent to me with the papers. When he is gone, I wish you to bring me a trooper, some silent man who can be depended upon, an invisible marksmen."

"When Captain Bent arrived, he handed to the general the papers he had taken from Armstrong. Cromwell examined them with great minuteness, the light of the candles, then set them in a bunch on the table without comment of any kind."

"Did your prisoner resist at all or make any attempt at escape?"

"No, general."

"He made no protest then?"

"He said England and Scotland were at peace, that he therefore needed no passport; that his arrest was illegal, and that you would be the first to admit as much."

"Umph! Was he thoroughly searched?"

"Are you sure he had no other papers than these?"

"Quite sure, general."

"Very good. Bring the man here. If the door is open, come in with him. If it is shut, wait until you are called."

"When the captain left the room the colonel entered with his trooper, who bore a torch. Cromwell dismissed Farlock, then said to the trooper:

"You will take your place in that gallery and remain there, making no sound. Keep your eyes shut and your eyes open. A man will be standing before me. If I raise my hand thus, you will shoot him dead. See that you make no mistake, and I warn you to shoot straight. Go!"

CHAPTER XIII.

WHEN Captain Bent entered the gallery room with his prisoner, he found Cromwell seated at the table, his head bowed over some pages of manuscript on which he was busily writing. The general did not look up for a full minute, until he had finished the sentence he was dictating, then he raised his head and said quietly to the captain:

"Go!"

For one brief and lamentable instant the discipline which held the captain in his hands relaxed, and he replied in surprise:

"And leave him unguarded, sir?"

Cromwell said nothing, but a look of such devilish ferocity came into his piercing gray eyes that the captain staggered as if he had received a blow, gasped, turned and fled. When the commander spoke to Armstrong there was no trace of resentment or anger in his tones.

"Will you oblige me by closing that door which Captain Bent has stupidly left open? You are nearer it than I."

Armstrong, with a howl that he was expected to do and returned to his place beside the table.

"With neither, General Cromwell, if I am not at fault in so addressing you. I suspect that there are not two such men as you in the army of the parliament."

Cromwell paid no heed to the compliment, if such was intended, but, as though his voice was suave, his keen eyes searched the prisoner like an eagle.

"The stoppage may indeed save you further annoyance if you intend to travel about the country, for I will give you a pass likely to prevent such a nuisance in future. You are in the cattle track, I am told."

"Yes, general."

"It is a commendable trait, with which I have no desire to interfere. You know of no reason for your arrestment by my stupid captain?"

"Truth to tell, your honor, and I know a very good reason for it."

"Umph! And what is that?"

"Some nights sleep, as I was making for the English line, I stopped for refreshment at an inn where I had been accustomed to halt in my travels. To my amazement, I was refused admittance by a man who stood on guard. We had a bit of a debate, which ended in my overpowering him and forcing an entrance, and which was more surprising—the dozen there gathered to gether, or me, with their squire under my order—it would be difficult to tell. Swords were drawn, and I might have come badly out of the encounter had it not been that a friend of mine among the assemblage recognized me."

"I suppose you wish to mention no names?"

"I see no objection," continued Armstrong innocently. "I take it that the men were quite within their right in gathering there, although I contended they exceeded their right in trying to keep me out of a public house. My friend was the Earl of Tracon. These gentlemen, finding I was for England, asked me to carry a message to the king, but I explained that I had no wish to interfere in matters which did not concern me, and they parted to meet again somewhere else. There was a great spore about a spy that escaped, and I have no doubt if he saw me there and heard the proposal made to me he might well have brought my name and description across the border. At least that was the way I reasoned it out with myself."

"It is very like you are right. Spies, unfortunately, seem to be necessary when a country is in a state of war. Many unjustifiable acts are then committed, including the arresting of innocent men. But I am anxious to know shall he do that will give just cause of offense to Scotland, a God-fearing country and a friendly. When such injustices happen, as it has happened in your case, I try to make amends. How far south do you propose to travel?"

"I may go the length of Manchester or Birmingham. The distance and the time will depend on the state of trade."

"If you will tell me places you intend to visit I will include them in the pass I shall now write for you."

"That I cannot say just at the moment. I wish to follow trade wherever it leads me."

"Then an inclusive pass, extending as far south as Manchester, will meet your needs?"

"It will more than meet them, general," said Armstrong, with supreme indifference.

"As you carry no message from Tracon to the king I can write Oxford on your permit as easily as Manchester."

"Thank you, general; but Manchester will be far enough."

"I am sorry that we are strict about those whom you allow to journey to and fro at the present time, and if you should overstep the limit of this document you are liable to investigation and delay, and I may not be so near at hand on the next occasion."

"I quite understand, and if I wished to go farther south I would have no hesitation in begging permission of your excellency, but I doubt if I shall even see Manchester."

"You will not be leaving Corbion until the morning, of course?"

"No, general. I know when I am well housed."

"Then, as I have much to do, I will

make out your paper later, and it will be handed to you in the morning."

"Thank you, general."

After giving some laconic instructions touching the welfare of the northern border to Captain Bent, who was hovering

measly in the outside hall, Cromwell, bidding his enforced guest a cordial farewell, ordered Wentworth to be brought to him and retired once more into the dim council chamber.

With hands clasped behind him and head bent, he strode slowly up and down the long room in deep meditation, vanishing into the gloom at the further end and reappearing in the limited circle of light that surrounded

the two candles, for the torches had long since smoked themselves out, and there had been no replacement of them, none daring to enter that room unsummoned while the leader was within it. The watcher in the gallery felt rather than saw that there was an ominous frown on the lowered face as the commander waited for the second prisoner, over whom hung sentence of death.

ENTRA TEACHER.

Will Probably Be Appointed Next Week.

Yesterday closed the first week of the spring term of public schools. The weather cut the attendance down a great deal but the week started off well and was successful.

The crowded condition of the high school is detrimental to the teachers and the best results cannot be obtained, but the school board will meet Tuesday and the matter of putting in an extra teacher settled.

The committee appointed to look into this matter has been investigating and there is not a member who does not feel that an extra teacher is an absolute necessity.

Saving as a Habit

Those people who find saving money easy, are usually people who make saving a habit. In fact it is only when saving becomes a habit that the best results are gotten.

If you will make saving a part of your life, as well as spending, you will soon be in a so much better condition that you will wonder why you never saved before.

It may be that you will find it a little hard at first, to save something, but if you will keep right at it, your manner of living will soon adapt itself to the new conditions, and you will find it comparatively easy to save.

If you set aside some special amount to save each week, or month, you will save more than you would if you do not have some regular time and amount to save.

You can start an account with the deposit of one dollar or more.

KENTUCKY NEWS TOLD IN PARAGRAPHS

Died in Texas.

Mayfield, Ky., Feb. 4.—Hon. L. E. Weatherford, aged 34, and three times representative from Graves county legislature died of consumption last night in San Antonio, Tex. He served at Frankfort during the Goebel-Taylor contest. He was a school teacher and is the author of many school laws of the state. He was a young man of great ability and seemed to have a bright future. Mr. Weatherford was born in Livingston county. His father is a minister of the Christian church now stationed in Missouri. He was popular as evidenced by the fact that the large county of Graves sent him to the legislature for three successive terms, being the only man the people have ever sent from that county for more than one term. Mr. Weatherford was married about fourteen years ago to Miss Mittie Griffith, daughter of Wiltz Griffith, the Mayfield tobaccoist. She and a little daughter survive him.

Much Thieving Going On.

Fulton, Ky., Feb. 4.—There is a perfect epidemic of thievery going on along the line of the Illinois Central, and the special agents are busy day and night capturing the car looters, who are mainly negroes. They are being captured in droves. Special Agent Murray has three in jail here for breaking into a trunk and upon "sweating" the three negroes confessed and implicated two other negroes in Cairo.

Marshal Mace McDade and Special Agent Murray left for Cairo to capture the two.

Yesterday while at Cairo Special Agent Murray captured three other negroes, who had broken into a car and stole flour, pork and tobacco.

Fulton county by that name in Hickman. Already the stock in the new bank is selling above par.

Dynamite Caps Explode.

Princeton, Ky., Feb. 4.—The little child of Mrs. Sam Stewart, near Quinn, threw three dynamite caps into the fire. Two of them exploded at once, and did no damage. Just as Mrs. Sam Stewart was stooping to take an iron from the fire, the third cap exploded, and pieces of shell produced severe wounds in her temple, arm and breast. It is feared she may not recover.

Kept Molasses in a Box.

Mayfield, Ky., Feb. 4.—During the summer, when prices were so high on molasses barrels, Mr. J. A. Bourland, of Symsonia, concluded he could get along without them. He made him a molasses box out of plank, holding 300 gallons, which has served his purpose as well as or better than the "old time" molasses barrel. He says the trusts can keep their barrels hereafter.

Burned at Hopkinsville.

Hopkinsville, Ky., Feb. 4.—John Edwards, colored, used coal oil to start a fire in a stove. There was an explosion and the house was set on fire. Edwards, who was frightfully burned, finally extinguished the flames in which he was wrapped by rolling in the snow. He will likely die from the burns. His wife and six little children escaped from the house in their night clothes. All were painfully burned, the woman's face and shoulders being blistered.
